

SPYRYS
Spas & Hot Tubs

Spyrys Spas

LUXURY HOT TUBS

We fully believe in the benefits of hot tub ownership and are passionate hot tub professionals and users. Our goal is not to offer you the biggest most expensive hot tub, it is to help and support you find the right hot tub for you and your family. We have therefore teamed up with one of the world's largest hot tub manufacturers to develop the Spyrys range of high-quality spas. So whether you are looking for a stunning full body massage in our lounge seats, or simply a soothing neck and shoulder massage to relieve tensions and stress, our spas have it all..

WHY BUY FROM US

The Spyrys Spas range has been developed and designed in conjunction with our suppliers and our manufacturer. Our spas are built by one of the world's largest hot tub manufacturers, in the world's largest hot tub factory with the aim of bringing you the best quality hot tubs in the market at an affordable price.

Our spas undergo a thorough build checklist and they are fully tested and inspected in the factory to ensure your spa is built to our highest standards.

Our American Aristech Acrylic means your hot tub not only looks great but is one of the best available; it's hard wearing, long lasting and combined with Kingspan insulation to help keep running costs low.

Our hot tub range also uses Gecko electronics, one of the best control panels and control boards available. Based in Canada, Gecko are not only experts at delivering state of the art electronic components, but they rigorously test their products in the harsh Canadian climates of up to -40 degrees, to ensure easy operation of your spa.

ADVANCED INSULATION

Our hot tubs are fitted with three layers of insulation for optimal heat retention. Built for the most extreme conditions our advanced insulation uses the heat generated from the pumps to keep your hot tub warm. An inner spray foam layer insulates the shell, whilst the Spaquilt reflects infra red heat and the out panel insulation keeps out the cold air. This ultimately reduces your running costs so you can sit back and relax for years to come.

BUILD QUALITY

Our range of spas are manufactured to be long lasting and maintenance free. All of our hot tubs come with a stainless steel structure and ABS tray base. Internal pipework is glued and clipped to ensure your spa withstands heavy usage. You can have total ease that your new spa comes complete with some of the best components available

ACRYLIC COLOURS

We use American Aristech Acrylic for the shell and have three stunning designs

ODYSSEY

STERLING SILVER

MIDNIGHT CANYON

QUALITY ASSURANCE

We provide ourselves on using quality components for our hot tubs range.

Unwind in our affordable yet Superior hot tub range and begin your journey to ultimate relaxation today.

BLUETOOTH SOUND SYSTEM

Streamed from your Spa – Your favourite music never sounded so good

Our spas come as standard with Bluetooth amplifier and two built in pop-up speakers

Simply connect your phone/tablet and play your music

GECKO CONTROLS

In.K300 CONTROL

The in.k300 brings all the features you really need to one keypad. Compact, with a big LCD screen; bright enough to be seen throughout the day; simple enough to use in the middle of the night; affordable, yet solidly built.

In.K500 CONTROL

With its bright, full color display and the high resolution of its screen, in.k500 keypad provides an intuitive user experience and brings the spa user interface to a new level. Loaded with a large amount of memory and a powerful on-board processor, in.k500 offers a truly seamless graphic interface and a complete control on all spa functions. Yet it is discreet, compact, and unobtrusively beautiful. Save space without losing out on functions.

HYDROTHERAPY

In recent years hot tubs or spas as they have become known for their therapeutic benefits and a means of bringing our busy families together for quality time with no distractions. Warm water can provide health benefits to people suffering from aches and pains but research has also show a regular spa session can also:

- Reduce blood pressure and aid stroke rehabilitation
- Promote white blood cell circulation to fight Colds and Infections
- Reduce blood sugar levels in Diabetes
- Increase metabolic rate to aid weight loss and detoxifying
- Help with Insomnia
- Provide Sports Injury rehabilitation
- Relieve tension and Stress -
- Reduce Arthritic pains and enables non weight bearing exercise

MASSAGE JETS

Advanced Ultimate Massagers

Imagine having your own personal masseuse but in your hot tub, our hydrotherapy jets can help with joint mobilisation, muscle strengthening, maintenance and restoration and improved circulation.

Neck / Shoulder Jets

Our luxury hydrotherapy neck and shoulder massage jets are fantastic at relieving tension and muscle tightness. Perfect for customers who suffer with neck pain, shoulder pains or headaches. Warm water combined with our jets relax your muscles and will leave you feeling refreshed and stress free

Leg / Thigh Jets

It's common that at the end of a long day, leg muscles ache. With our hydrotherapy leg and calf jets you can soothe and relax tired and aching muscles. These jets are perfect for people who are active including cyclists and runners.

Sales, Service & Support

The name Spyrys comes from the Cornish word for Spirit

We set up Spyrys Spas & Hot Tubs when looking to purchase a hot tub for ourselves in 2012 specifically for hydrotherapy and relaxation. Brian comes from an engineering background in the water industry with over 25 years construction experience including the design and building of water treatment plants and pumping stations. Sharon started her career as a Medical Secretary and understands the benefits of hydrotherapy massage as well the importance of long term customer care.

Our business has grown year on year and our large, indoor showroom in Wadebridge, North Cornwall, displays a range of excellent quality Hot Tubs and Swim Spas to suit all lifestyles and budgets.

With our own Spyrys range of hot tubs we wanted to offer everything we were looking for in a hot tub; affordability, build quality, reliability and economic running costs but most importantly, a comfortable place to relax and spend time together.

Spyrys an Dowr – plug & play

Spirit of Water

Spyrys an Mor – family favourites

Spirit of the Sea

Spyrys an Heyl – powerful hydrotherapy

Spirit of the Estuary
